induce the animal to move, the gentleman you please, sir, I'll make him go." The priva new idea."

shoeing and of injudicious management gen- would be much happier and much more truly erally, we have frequently affirmed and invist- loveable. - Springfield Republican. ed upen in this department of our journal .-teach such lessons as the following:

false principle, inasmuch as, if the natural but in society. growth of horn be favored, there is a deep layer of soft material in contact with the vascular textures; but when the sole is pared thin, the thin layer speedily dries, and the result is exactly opposite to that which the unreflecting practitioner anticipates."

The remaining lessons or conclusions derived from the cases detailed by Prof. G., we will now give in a somewhat condensed

2d. When farriers are not properly superclean work, and in doing so they cut and reanother way. Not considering that the manor interfering. The fact had become lowered "artistes." on the inside, from the cutting away of the Let no man deceive you in regard to

mately the indirect cause of the very injury it was wished to obviate.

3d. It is very clear from the result of the treatment in several of the cases mentioned by Prof. G., that, even in cases of pentracted inneress, relief may be given with great promptitude by the adoption of ample measurement of the Chancellue, made Dec. 17, 1850, ordering a dividend puld upon the chims which had been or three oranges, strain it, and sweeten it to lameness, relief may be given with great BIRD's NEW PUDDING .- Pure and quarter flinch, greating the hoof with hoof sintment, June 1 West, tert apples, and place them in a buttered and waiting for a sufficient growth of horn

4th. When the feet are much injured, and a half tea-spoons of salcratus, and a little time is required for the growth of the hura. Best haloring salt. Pour the batter over the apples, and Fomentations and poultices are useful in the early stages of lameness; but if continued too long the horn suffers. If the horn should To CLEAN KID GLOVES OF ANY COLOR- be dry and very hard, pintments of proper Take white sosp and make a very thick consistence, containing tar and other substan-"lather" with a soft brush, such as gentle cos, confine the natural exhalations, and favor men use in shaving, and put the glove upon the maintenance of the supple and elastic

it off quickly with a clean flannel till it is dry. To these remarks of Prof. Gamges we

Mrs. Kirkland has very truly said that woman is never really and healthily happy, LARGE HEITER. We saw on Monday of without household cares. But to perform this week, a helfer weighed, which had been house-work is too frequently of the performance of the control of th bought of Henry Lane of Cornwall, by M. T. grading. Even where the meter, in obedi-Shackett. The unimal is four years old, and ence to the traditions of her youth, condeweighed twenty-three hundred and sixty fire seends to labor occasionally, the daughters pounds, and brought one hundred and forty- are frequently brought up in perfect Bleness. seven dollars and eighty-one cents. There take no bodily exercise except that of walkmay have been larger helfers than this, but ing in fine weather, or riding in cushioned we have never heard of them, and do not ex- carriages, or dancing at a party. Those in pect to see the like again very soon .- Mid- short, who can afford acreants, cannot demean themselves, as they think, by domestic laborn. The result is, too frequently, that is Sow and Pigs. -Mr. Henry Pike, of Men- dies in this class lose what little health they week in November, from which he had rais about the proportion as they become fashiondy, no matter how elevated her rank, never forgets that domestic labors conduce to the bealth of mind and body alike. An English lady, whatever may be her position in society does not neglect the affairs of her household, and even though she has a household, and even though she has a house-keeping do. A NEW WAY TO START A BALKY HORSE - does not neglect the affairs of her household, After whipping and coaxing had failed to and even though she has a house-keeper, devotes a portion of time to this one, her true who was driving, or trying to, gave up ... and happiest sphere. A contrary course to Then a carman went up to him, saying, "If this results in a lassitude of mind often as fatal to health, as the neglect of bodily exeryou please, sir, I'll make him go." The privilege was granted, and going to the gatter he took a handful of mud and rubbed it up on the nose of the horse, upon which the since the foundation of the world, and either the said thousand the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics, generally pays the penalty which has been affixed to idleness to her domestics. horse started without trouble. The carman since the foundation of the world, and either secounted for the effect, "O, sir, it gives him wilts away from sheer ennul, or is driven into all sorts of fashionable follies to find employment for her mind. If household eares LAMENESS IN HORSES FROM INJUDICIOUS were more generally attended to by ladies of MANAGEMENT OF THEIR FEET .- That lame family, there would be comparatively little

As a thorough persuasion of the truth of this A WORD TO APPRENTICES.-Apprenticeproposition is an indispensable prerequisite ship is the most important stage of life to reform in this particular, we gladly avail through which a mechanic he called to pass, ourselves of the opportunity of giving it some it is emphatically the spring season of his confirmation by a few quotations from a clin-ical lecture delivered at the New Veterinary the fruits of which he is to resp in after S Feb 21st. C. O. THOMPSON. School, Edinburg, in January last, by Prof. years. If he spare no labor in its proper cul-Gampes, whose high qualifications and au- ture, he is sure of obtaining an abundant thority, in matters of this kind, are well harvest, but if, in the culture of the mental known in his own country, and also to not a soil, he follows the example of many in tillfew on this side of the Atlantic. After giv- ing the earth, and careleasly and negligently ing the history of several cases of lameness does his work, like them, he will find the about which he had been professionally con- seeding time past, and his ground only bringsulted, he concludes his lecture by informing ing forth weeds and briars. Let the young his students that the cases he had recited apprentice bear in mind, when he commences learning any business, that all hopes of auc-1st. "That the common practice of weak, cess in the future are doomed to fade away oning the horny covering of the very vascular like the morning mist, unless he improve the and sensitive structures of the horse's foot is golden season. Let him bear in mind that a fruitful source of irritation and pain, and he can become master of his business only consequently of lameness. The methods through the closest application and the mosadopted, which weaken the feet, are chiefy persevering industry; and that unless he rasping the crust or wall of the hoof, and does master it he may bid farevell to all the paring the sole excessively. Most frequent- visions of future prospects and success. The ly the toe is shortened, so that the nails must apprenticeship is the foundation of the great be driven high in order to hold sufficiently mechanical edifice, and surely if the foundato preserve the shoe in position. The deep- tion of a structure be not firm, the structure seated horn is soft and elastic, so that the litself crumbles and falls to the carth. Then, iron nails press injuriously against the sensi- young friends, persevere, be studious and attive tissues, and soreness and absolute pain tentive, study well all the branches of your must result. I can not sufficiently condemn business, both practical and the cretical-and the practice of paring the soles thin in cases when the time shall come for you to take an than was ever offered in this part of the state, of lameness. This is done with the object active part in life, you will not fail to be of of relieving the subjacent tissues, but on a use, not only in your own particular business

MODERN REFINEMENTS .- People do not A laugh now-a-days-they indulge in merryment. They do not walk-they promenade. They never eat any food-they musticate it. Nobody has a tooth pulled out-it is extracted. No one has his feelings hurt-they are lacerated. Young men do not go courting girls-they pay young ladies attention. It is vulgar to visit any one-you must only make a call. Of course you would not think of intended, they are very apt to try and do would you build a house—you would retire to rest. Nor would you build a house—you would erect it. move horn from where it should remain. a "company," and shoes at a "mart." Blacking is dispensed at a "institution," and meat

THE undersigned would call the attention of the traders of Northern Vermont to their ner in which the foot bears upon the ground the word "shop" had not only become con- Oils, Soaps, Candles, Fluid, & from a "purveyor." One would imagine that limb, they work away at random, and often belong to the English language. Now-atemptible, but had been discovered not to lay the foundation of deformity and eventual days, all the shops are "warehouses" or "halameness. A case is here referred to, in zaars," and you will hardly find a person have which the inner quarter of the hoof of a fore ing the hardihood to call himself a shopfoot was found much cut away—the cutting keeper. "Workpeople" are "employes," "tea having been in the course of time repeated meetings" are "soirces," and "singers" are

wall and of the horny sole-was tender to "your mission!" Do not think that you were the touch, and above the heels and frog the destined to figure in the legislative halls, tissues were quite puffy and sensitive. This cutting away of the inner quarter of the hoof, the narrowing of the shee, and favoring its displacement toward the outer part of the hoof, when your voice is pronounced by all of your friends, like that of an inhoof, when long continued, throws the animal out of his natural balance, and not only contributes to make him lame, but is ulti-
